

JORDAN NATURELINE

THE GREEN PROTECTION FOR WOOD AND ENVIRONMENT

»BODYGUARD
OF WOOD«

With NATURELINE JORDAN Lacke becomes green. This wood preservative does not only protect your wooden surfaces but also the environment. Although NATURELINE is effective against animal and vegetable pests, it is environmentally friendly and health-conscious for human beings and animals. The purely mineral water-based wood preservative does not contain any toxicological or other harmful ingredients. It has a wood-strengthening crack-bridging effect and offers the perfect quintuple protection against termites and/or wood worms, fungi, fire (flame-retarding), UV radiation, and rain (cannot be washed out). You can't get it greener.

»BODYGUARD OF WOOD«

- + water-based, emission and solvent-free
- + flame-retarding and water-repelling
- + effective against animal and vegetable pests
- + protects against mould stains and yellowing
- + suitable for floor-contact and in animal areas

JORDAN NATURE-PUR is also harmless in areas where there are allergy sufferers, persons with health impairments, small children and animals.

PROTECTS WOOD AND THE ENVIRONMENT

PURELY MINERAL, WATER-BASED AND WITHOUT TOXICOLOGICAL INGREDIENTS

BIOCIDES-FREE

JORDAN NATURE-PUR

PRODUCT CHARACTERISTICS

- ✦ Purely mineral and solvent-free⁴
- ✦ Harmless for bees⁴
- ✦ Without pesticides, insecticides and biocides⁴
- ✦ Does not leave any harmful substances in the nature⁴
- ✦ Emission-free – tested acc. to eco-Institut⁴
- ✦ Eph-tested acc. to DIN EN ISO 2409¹
- ✦ Colour-neutral
- ✦ Water-repellent
- ✦ Protects against animal wood pests such as termites, house longhorn, sapwood bug, furniture beetles, woodworm, etc.⁵
- ✦ Combats wood pests also after infestation⁵
- ✦ Effective against vegetable wood pests such as fungi, mould, blue stain fungi, blue stain and dry rot, etc.³
- ✦ Protection against harmful environmental influences including weathering
- ✦ The wood grain is highlighted and the natural wood colour emphasized.¹
- ✦ Act as a flame-retardant in case of minimum smoke development. In particular, fire spread and smoke development are sustainably inhibited.²
- ✦ Has a “crack-bridging” effect and is to some extent elastic regarding torsion and thermal expansion of the building material.¹
- ✦ Insects that come into contact with the treated wood after drying will not be impaired.⁴
- ✦ Impregnated wood can promptly come into contact with the floor.

JORDAN NATURE-UV

ADDITIONAL PRODUCT CHARACTERISTICS

- ✦ Suitable as a greying protection
- ✦ Protects against mould stains and yellowing
- ✦ Against UV radiation

JORDAN N

THE GREEN PROTECTION

TESTED BY:

1. EPH, Development and Test Laboratory Wood Technology GmbH
2. SP Technical Research Institute of Sweden
3. Department for Forest Products, Division for Wood Science of the Swedish University for Agriculture
4. ECO Institute (certification number ID 0315-33357-001)
5. Forest Products Department, Mississippi State University

JORDAN NATURE-COLOR

ADDITIONAL PRODUCT CHARACTERISTICS

- ✦ Suitable for colour design

NATURELINE

PROTECTION FOR WOOD AND ENVIRONMENT

Can be applied as follows:

- brush
- roller
- pressure spraying
- spray gun
- pressure impregnation
- dipping
- flooding
- Vacumad

Ideally suitable for:

- woods in outdoor areas
- wooden houses
- all constructive woods
- chalet or weather boarding
- protecting masts
- terrace wooden floors
- woods for children's playground devices
- fences
- woods in indoor areas
- roof constructions and ceiling beams
- ceiling and wall panelling
- areas where there are allergy sufferers, sick people and children
- areas where there are animals (such as bees and stables)
- flame-retardant
- hydraulic engineering (such as masts and stakes)

JORDAN NATURELINE products must not be filled into zinc, aluminium or glass containers.

**Because it depends
what you put on the top:**
The **STRONG-IN-COATINGS** helmet
is a sign of top quality as far as
surfaces are concerned. Protection,
finish, design, and function - our
helmet stands for all of this as a
symbol ...

JORDAN Lacke is part of the family-owned PCG group. In cooperation with this group we have a worldwide network of branches and distributors. We guarantee short ways to our customers and knowledge about local conditions.

For over half a century we have always found new solutions for our customers. Based on this we develop high-quality products and promote innovative production processes.

Our laboratories develop market-orientated and futuristic products using the latest raw materials. That is why our customers have been satisfied PCG partners for many years.

1

STRONG IN COATINGS FOR ROBUST SURFACES
AND HIGHEST DURABILITY.
THE PERFECT PROTECTION

2

STRONG IN COATINGS FOR PRECIOUS AND
HIGH-QUALITY SURFACES.
THE PERFECT FINISH

3

STRONG IN COATINGS FOR A LARGE VARIETY
OF DESIGN POSSIBILITIES.
THE PERFECT DESIGN

4

STRONG IN COATINGS FOR FUNCTIONAL SUR-
FACES.
THE PERFECT FUNCTION

THE PCG GROUP AT A GLANCE:

**PRODUCTS AND SOLUTIONS
FOR THE INDUSTRY**

**PRODUCTS AND SOLUTIONS
FOR CARPENTERS**

OUR ADVANTAGES AT A GLANCE:

- + Modern coating systems
- + Good value for money
- + Certified quality
- + Advice and technical support locally
- + Developments in cooperation with the customer
- + System supplier with own laboratories
- + Fast deliveries worldwide

OUR FOREIGN BRANCHES:

- PLANTAG DO BRASIL Ltda.
- PLANTAG COATINGS INDIA Pvt. Ltd.
- PLANTAG COATINGS GROEP NL
- PLANTAG POLSKA Sp. z.o.o.
- PLANTAG ROMANIA S.R.L.
- PLANTAG SWITZERLAND
- PLANTAG TÜRKIYE Ltd. Sti.

OUR REPRESENTATIVE OFFICES ABROAD:

- BOSNIA AND HERZEGOVINA
