# **COMPETENCE IN LACQUER**

## **KNOW-HOW AND ADDED VALUE – THE PERFECT SURFACE**

**Since 1953, we've evolved from a medium-sized company to a global group. To this day the company remains a family-run concern. Thanks to our international network of subsidiaries, dealers and representatives, we can guarantee that we're never far away. We know the local markets and circumstances.**

**As a producer of lacquers, Plantag is a specialist in surface technologies. We can always come up with suitable, innovative solutions for your product portfolio and your individual production conditions. Our experience and commitment to creating something special are what sets us apart from the crowd. We have long-standing, satisfied customers from a wide range of industry sectors all over the world. With our sound knowledge, focus on service and innovative products we continuously create added value for our customers.**

**You can rely on our competence in lacquer.**

- + Various coloured oils and care products round off the range

### Basic sanding

**Base coat | 77328.42 | 10-15 g/m<sup>2</sup> | Industrial drying**

**Finish | 77328.42 | 10-15 g/m<sup>2</sup> | Industrial drying**

Standard mixed colours for industrial and semi-industrial application

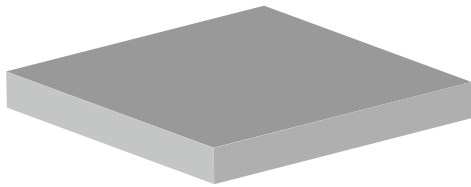

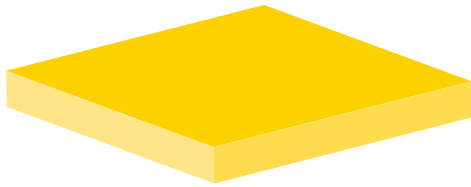

**We work responsibly to develop almost emission-free lacquers. With the help of our market analysis, we've done an in depth look at the needs of our consumers. With our flexible interchangeable system combinations, all of our UV lacquers meet the needs of our customers and the market. With our Classicline, Comfortline and Highline product ranges, you can define your exact requirement profile. UV lacquers from PLANTAG are available in clear and pigmented versions as well as in various gloss levels. If necessary, we will adapt our products to your production conditions.**
